'GROWTH DRIVERS OF VIKSIT BHARAT @ 2047: AMRIT KAAL VISION'

Hon'ble Prime Minister in his 2021 Independence Day speech shared his vision for Amrit Kaal and India @ 2047, when the country would celebrate 100 years of independence. Amrit Kaal envisages India as a technology-driven and knowledge-based economy with strong public finances and a robust financial sector. To achieve these goals, he gave the slogan, "Sabka Saath, Sabka Vikas, Sabka Vishwas, and Sabka Prayas." The objectives of the vision Amrit Kaal and India @2047 are:

- Achieve a USD 30 trillion economy with a per-capita income of USD 18,000-20,000.
- Build world-class infrastructure and cities in rural and urban areas.
- Eliminate unnecessary interference by the Government in the lives of citizens and promoting digital economy and governance.
- Develop 3-4 global champions in every sector by merger or restructuring and boosting indigenous industry and innovation.
- Become self-reliant in defence and space sectors, and enhancing India's role in the world.
- Foster green growth and climate action by increasing renewable energy capacity and reducing carbon emissions.
- Empower youth with skills and education, and creating more employment opportunities.
- Establish the top 10 laboratories in the country and elevate at least 10 Indian institutions into the global top 100 rankings through collaboration with international R&D organizations.

The Government has taken several steps to progressively achieve the aforesaid objectives like focusing on women's development, health, education, skill development, science and technology advancement, infrastructure creation, employment, agriculture, increasing manufacturing, industrial production, innovation, boosting indigenous industry, special focus on green fuel, green energy, green farming, green mobility, green buildings, and green equipment. The Government is also focusing on critical and emerging technologies like Block Chain, Artificial Intelligence (AI), and Internet of Things (IoT) etc. To boost the economy and industrial output, various policies on skill development, ease of doing business, and schemes like PM Gati-Shakti, Production Linked Incentive (PLI) Schemes are already in. Similarly, the Competitiveness Roadmap for India@2047 emphasizes productivity as a driver of sustained prosperity through sector-specific and region-specific policies based on the "4 S" principles (Social, Solid, Sustainable, and Shared) i.e. prosperity growth to be matched by social progress, to be shared across all regions within India, to be environmentally sustainable, and to be solid in the face of external shocks.

Call for Papers

Dr. Rajendra Prasad National Convention- IV

(Series of Memorial Lectures)

on

'Growth Drivers of Viksit Bharat @ 2047: Amrit Kaal Vision'

Organized by

Indian Institute of Public Administration
(IIPA)

Indraprastha Estate, Ring Road, New Delhi,
India

19-20 December, 2024

Last date for submission of Paper – 2nd December, 2024

Last Date of Registration – 9th December, 2024

The National Convention will provide a platform to scholars, industry professionals, academicians and students from across the country to present new ideas, knowledge, perspectives and share experiences by bridging the gap between theoretical and real-life applications pertaining to different topics. The convention presents a unique opportunity for everyone to come on-board, contribute and learn from others while offering long-lasting relations for future collaborations.

ABOUT IIPA

Indian Institute of Public Administration was set up in 1954 as an Autonomous Society to enhance the frontiers of knowledge in public policy and governance through applied research and education as well as training of administrators to serve the people of India in the most effective and efficient way. Enhancing leadership and managerial qualities on the one hand and developing a service-orientation on the other are the thrust areas of the Institute's education and training activities. The Institute has been set up to equip the public servants with knowledge, skills, and behaviour required for managing the task of governance. In its effort to enhance the leadership, managerial, and administrative capabilities of the executives in government and public sector enterprises, the Institute works in close collaboration with national and international organizations. The institute has to its credit over 2000 research projects in niche areas of governance and has conducted over 7000 training programmes both for national and international organizations and in the process trained over 5,30,000 personnel from different sectors.
